

INDEX OF AUTHORS

- Anceaux
 Nimboran phonology and morphology 561-622
- Aoun and Li
 A-bar Disjointness, minimality effect on 478, 505-506
- Baker, Mark
 morphology and syntax 433
 passive typology 34-35, 41-42
 double object constructions and passive 679-684, 687, 696, 703, 724-725
- Barss
 null operators in clefts 43, 47
- Belletti and Rizzi
 psych verbs and unaccusatives 711-712
- Borer
 morphology and syntax 434
- Brandi and Cordin
 Fiorentino and Trentino 481-483, 485-486
- Bresnan and Moshi
 object typology 679, 719-720
- Brody
 empty categories 13
- Burzio
 his generalization reinterpreted 690-691, 694, 710, 724-725
 passive morpheme and absorption 31, 690-691, 694, 710, 724-725
- Cheney and Seafarth
 animal communication 281-282
- Chomsky
 Case assignment 691, 693-694
 clefts 47
 government, definition of 10-11
 movement and pronominal trace 495, 498
 principles, properties of 4
- Cinque
 adjuncts and complements 123
 conditions on extraction 129, 131-132, 135, 139-140, 172
- Comorovski
 extraction constraints 89-90, 92
- Delahunty
 clefts 42-43, 49, 63, 67-69
- Emonds
 conceptual structure and syntax 279-309
- Enç
 specificity 86-87
- Grimshaw
 argument structure in the lexicon 520-523
- Gruber
 lexical structure 290-291, 294
- Halle and Vergnaud
 cyclicity a diacritic property of affixes 268, 273-274
 Exhaustivity Condition 391-392
 metrical framework 197, 199, 204, 224, 226-227
 stress erasure 227
 stress representation 260
- Hayes
 Chugach and moraic iambs 411-418
 Iambic-Trochaic Law 381-383
 moraic theory 627-628
 ternary systems 411
 Yidin' 407-408
- Heim
 definiteness 86
- Horn
 metalinguistic negation 51-53
- Horvath
 government directional 11
- Jackendoff
 lexical structure 159-163, 170, 172
 lexical structure: Adjunct rules 123, 161-163

- Keyser and Roeper
 particles 466-468
 Koopman and Sportiche
 logophoric pronouns 180, 194
 Kuno
 Japanese passive 548-550
 Kuroda
 Wh-movement 670-671, 676

 Leer
 Chugach and moraic iambs 411-418

 Mahajan
 scrambling and Wh-movement 655,
 661-663, 676
 McCarthy and Prince
 Iambic-Trochaic Law 383-384

 Pollock
 verb raising 324-325, 330-332
 Prince
 shortening 426-427

 Rice
 metrical analysis of Chugach
 420-421

 Rizzi
 adjuncts and complements 123
 conditions on extraction 129-130,
 172

 Saito
 Wh-movement and scrambling
 655-657

 Sobin
 Ukrainian passives 32, 36

 Stowell
 government directional 11
 Identification Principle 47-48, 63
 null operators 4, 65-66
 null operators in relative clauses 4

 Yip, Maling and Jackendoff
 Case Principle 691

 Zagana
 Tense government of null VP 5-6, 8,
 18

 Zubizarreta
 primary and secondary theta roles
 54-55

INDEX OF LANGUAGES

- Arabic
 Anti-Agreement Effect 511–515
 subject extraction and agreement 487
- Araucanian
 iambic parsing of 409
- Berber
 Anti-Agreement Effect 479–481,
 499–504, 507, 509–510, 514
 clefts 479–481
 negation and the Anti-Agreement
 Effect 499–504, 507, 509–510,
 514
 short extraction 491–492, 514
 subject extraction and agreement 487
 subject relatives 479–481
 Wh-questions 479–481
- Breton
 Anti-Agreement Effect 462–483,
 499–504, 507, 509–510
 negation and the Anti-Agreement
 Effect 499–504, 507, 509–510
 subject extraction and agreement 487
 subject relatives 462–483
 Wh-questions 462–483
- Celtic
see Breton
- Chicheŵa
 applicative morpheme 699–705, 707
 asymmetric passive 697–705, 707,
 720
 object markers and passive 721–722
 passives 699–705, 707, 721–722
 unaccusatives 714
- Chugach
 fortition 415
 metrical analysis of 420–421
 moraic iamb analysis 413–417
 standard iambic analysis 417–421
 stress data 411–415
- Dutch
 adjectival heads 462–463
 particles 433–473
 particles and morphology 434,
 439–440
 particles and resultatives compared
 436–442
 particles and Wh-movement 438
 particles not syntactic 442–450
 resultatives 433–473
 resultatives not small clauses
 450–457
 word order 436
- English
 adjectival heads 467–468
 particles and Complexity Constraint
 465–466
 passive 685, 687–689, 691–701, 709
- Finnish
 passives and Case 40–41, 43
- Fiorentino
 Anti-Agreement Effect 481–482
 postverbal subjects and agreement
 485–489
 subject relative clauses 481–482
 subject topicalization 481–482
 Wh-questions and extraction 514
- French
 argument islands 121–173
 causatives and clefts 75–76
 clefts 70–81
 control structures and clefts 76
 functor predicates 552
 passive and clefts 74–75
 predicate clitics in clefts 70–79
- Fula
 asymmetric passive 697–704
- German
 passive 684–689
 passives lacking Case Absorption 34,
 43
- Greek, Modern
 bound pronoun 175–193
- HiBena

- asymmetric passive 697-701, 704, 709
- impersonal passive 709
- Hungarian
 - Wh-movement and specificity 85, 97-104, 107, 112-118
- Irish
 - object relatives 492
- Italian
 - psych verbs 711-712
- Japanese
 - adversity passives 548-551
 - causatives 544-551
 - functor predicates 546-551
 - has syntactic Wh-movement 655-676
 - multiple Wh-movement 668-676
 - passives 548-551
 - reflexives and passives 550-551
 - sase and rare 544-551
 - Superiority Effect 663-668, 672
- Kannada
 - passive movement not necessary 38-39, 43
 - passives and Case 39, 43
- Kinyarwanda
 - applicative morpheme and passive 706-708
 - object markers and passive 723-724
 - passives 682, 705-710, 723-724
 - symmetric and asymmetric passive 705-710
- Kitharaka
 - asymmetric language 720-721
 - passive symmetric 720-721
- Latin
 - passives 689-690
- Moses-Columbian Salish
 - see Salish, Moses-Columbian
- Nahuatl
 - Case Absorption 36, 43
- Nepali
 - passives 37-38, 43
- Nimboran
 - allomorphy 605-610
 - blocking in morphology 583-596
 - durative 571
 - iterative 572-573
 - locative 571-572
 - morpheme ordering 559-622
 - object marking 570-571, 583-591
 - order of verbal morphemes 578-583
 - prosodic structure 563-566, 603-605
 - subject marking 566-570
 - tense 573-574
 - verbal data 561-583, 591-596, 615-622
 - verbal particles 574-578, 591-596
 - verbs are compounds 603-613
 - vowel harmony 564-566
 - zero morphs 610-613
- Niuean
 - Case Absorption with incorporation 35
- Norwegian
 - passive 37, 43, 682-684
 - unaccusatives 712-713
- Papuan
 - see Nimboran
- Polish
 - comitative coordination 368-369
 - syllabification 626-628
- Runyambo
 - object markers and passive 722-723
- Russian
 - comitative coordination 347-377
 - comitative coordination, syntactic analysis 356-364
 - comitative coordination, description 349-356
 - comitative coordination, semantic analysis 364-377
- Salish, Interior
 - analyses of stress compared 261-267
 - see also Salish, Moses-Columbian
- Salish, Moses-Columbian
 - accent 250-259
 - cyclic stress assignment 213-214, 225-227
 - dominant suffixes 207-214, 255-259
 - extrametricality and root classes 228-238
 - phonology and morphology 200-204
 - prefixes not subject to stress placement 227
 - recessive suffixes 207-214, 216, 250-255
 - root classes and stress 214-228
 - root vowels predictable 218-222
 - stress and cyclicity 197-274

- stress and root classes 214–228
 stress and suffixes 207–214, 216, 250–259
 stress assignment 204–261
 stress assignment rightward 205–206
 stress erasure 226–227
 suffixes and stress assignment 207–214, 216, 250–259
 vowel deletion and cyclicity 244–250
 weak roots 215–218, 233–238
see also Salish, Interior
- Seneca
 iambic parsing of 408
- Sesotho
 unaccusatives 714–717
- Slovak
 adjacency effects 643–651
 Compensatory Vowel Vocalization 625, 637–643
 consonants nonmoraic 629, 636
 depalatalization 625, 643–651
 long vowels 631–636
 Nasal Deletion 638–643
 Rhythmic Law 631–636
 Stray Erasure 633, 635, 645–646
 Vowel Lengthening 631–636
 Yer Vocalization 629–637
- Swahili
 passive 686
- Swedish
 passive 683–684
- Trentino
 Anti-Agreement Effect 481–482
 subject relative clauses 481–482
 subject topicalization 481–482
 Wh-questions and extraction 514
- Tübatulabal
 stress and moraic iambs 400–404
- Turkish
 participles 483–484
 relatives 492–494
 subject extraction and agreement 488
 subject relative clauses 483–485
 Wh-questions and relative clauses compared 514–515
- Ukrainian
 passives 32, 36–37, 43
- Welsh
 negation and the Anti-Agreement Effect 499–504, 507, 509–510
 relatives 492–494
 subject extraction and agreement 487
- YidinꞤ
 iambic parsing of 407–408
 rightward foot construction 407–408
- Yupik
 see Chugach

INDEX OF SUBJECTS

- à and de (French)
 - are arguments 123–129
 - are islands 129–152
 - clausal complements with 146–152
 - extraction from 132–152
 - lexical structure of 163–168
 - not unaccusative 153–158
 - structure of complements containing 139–145, 152–158
 - unergative 158
- A-bar Antecedents
 - Anti-Agreement Effect and 489
 - see also* A-bar binding, A-bar bound pronouns, A-bar chains, A-bar Disjointness, A-bar movement, A-bar positions, Anti-Agreement Effect, bound pronouns, *idhios*, null operators, *pro*, pronouns
- A-bar binding
 - avoidance of 477
 - see also* A-bar bound pronouns, A-bar chains, A-bar Disjointness, A-bar movement, A-bar positions, Anti-Agreement Effect, bound pronouns, *idhios*, null operators, *PRO*, *pro*, pronouns, Wh-movement
- A-bar bound pronouns
 - distribution of 175, 180–186
 - in Greek 175–193
 - see also* A-bar binding, A-bar chains, A-bar Disjointness, A-bar movement, A-bar positions, Anti-Agreement Effect, bound pronouns, *idhios*, null operators, *PRO*, *pro*, pronouns
- A-bar chains
 - in clefts 59–62
 - parasitic gaps and 1
 - see also* A-bar binding, A-bar bound pronouns, A-bar Disjointness, A-bar movement, A-bar positions, Anti-Agreement Effect, bound pronouns, *idhios*, null operators, *PRO*, *pro*, pronouns, Wh-movement
- movement
 - A-bar Disjointness
 - Greek *idhios* and 187–191
 - minimality and 505–511, 515
 - Requirement, stated 490, 506
 - resumptive pronouns and 489–494
 - see also* A-bar Antecedents, A-bar binding, A-bar bound pronouns, A-bar chains, A-bar movement, A-bar positions, Anti-Agreement Effect, bound pronouns, *idhios*, null operators, *PRO*, *pro*, pronouns
 - A-bar movement
 - long distance scrambling is 655–668
 - see also* A-bar Antecedents, A-bar binding, A-bar bound pronouns, A-bar chains, A-bar Disjointness, A-bar positions, Anti-Agreement Effect, bound pronouns, null operators, *pro*, Wh-movement
 - A-bar positions
 - empty categories in 1
 - see also* A-bar Antecedents, A-bar binding, A-bar chains, A-bar movement, Anti-Agreement Effect, null operators
- accent
 - dominant suffixes and in Moses-Columbian Salish 255–259
 - in Moses-Columbian Salish 250–259
 - recessive suffixes and in Moses-Columbian Salish 250–255
 - see also* accent systems, prosodic structure, stress, stress assignment
- accent systems
 - compared typologically 260–261
 - see also* accent
- Accusative Case Blocking
 - Burzio's Generalization reinterpreted as 690–691, 694, 710, 724–725
 - Case Principle compared to 691
 - effects of 679–680
 - ergative languages and 717–718
 - structure and 695–696, 705–708,

- 715–719, 724–725
 thematic hierarchy and 690–691,
 697–700, 705–708, 724–725
 theoretical status of 717–719
 unaccusatives and 710–717
 verb roots and 695–696
 word formation and 717–718,
 724–725
see also asymmetric passive, Burzio's
 Generalization, Case, Case
 absorption, double object
 constructions, noun incorporation,
 passive, symmetric passive,
 unaccusatives
- adjacency effects
 in Slovak 643–651
- adjectival heads
 in Dutch, and Complexity Constraint
 462–463
 in English, and Complexity Con-
 straint 467–468
- adjunct rules
 argument structure, selection, and
 123, 161–171
see also adjunct status, adjunction,
 adjuncts, argument islands,
 argument linking, argument
 structure, arguments
- adjunct status
 of CP in predicational null operator
 structures 5–10
see also adjunct rules, adjunction,
 adjuncts, argument islands,
 argument linking, argument
 structure, arguments, Theta
 Criterion, theta role assignment,
 theta roles
- adjunction
 in syntax and morphology 472
 is sole morphological structure 472
 percolation and 450–457
 theta roles and 450–457
 to heads 434–4
see also adjunct rules, adjunct status,
 adjuncts, argument islands,
 argument linking, argument
 structure, arguments
- adjuncts
 complements and 5–6
 complements distinguished from 123,
 129–135
see also adjunct rules, adjunction,
 argument islands, argument
 linking, argument structure,
 arguments, Theta Criterion, theta
 role assignment, theta roles
- adverbs
 acceptability in clefts 58
 adversity passives
 in Japanese 548–551
see also passive
 affix lowering
 aspectual *come/go* and 323–344
 pleonastic *do* and 335–344
- agreement
 in Berber 479–481
 postverbal subjects and 485–489
 semantic in Russian comitative
 coordination 348
see also Anti-Agreement Effect
- allomorphs
 in Nimboran verbs 605–610
- animal communication
 syntax and 281–282
- Anti-Agreement Effect
 A-bar Antecedent and 489
 Berber 479–481
 Breton 462–483
 described 479–485
 Fiorentino 481–482
 long extraction and 481–482
 negation and 499–511, 515
 null subject languages and 477
pro and 489
 resumptive pronouns and 489
 short extraction and 511–515
 subject extraction and 477–516
 subject inversion and 485
 Trentino 481–482
 Turkish relatives 483–485
see also A-bar Antecedents, A-bar
 binding, A-bar bound pronouns,
 A-bar chains, A-bar Disjointness,
 A-bar positions, Anti-Agreement
 Effect, bound pronouns, null
 operators, *pro*, Wh-movement
- anti-c-command
 null operators and 2
 parasitic gaps and 2
- Anti-Clash Filter
 statement of 397
see also prosodic structure, rhythmic
 theory
- Anti-Lapse Filter
 iterative foot assignment and 395
 statement of 394
see also prosodic structure, rhythmic
 theory

- applicatives
 - in Chicheŵa 714
 - in Sesotho 714–717
 - passive and 699–708
 - unaccusatives and 714–717
 - see also* passive, unaccusatives
- argument islands
 - in French 121–173
 - see also* adjunct rules, adjunct status, adjunction, adjuncts, argument linking, argument structure, arguments
- argument linking
 - subcategorization and 293–294, 296–310
 - theta roles and 290–294
 - see also* adjunct rules, adjunct status, adjunction, adjuncts, argument islands, argument structure, arguments
- argument structure
 - of *have* 524–534
 - Lexical Conceptual Structure and 521–523
 - selection and 123
 - see also* adjunct rules, adjunct status, adjunction, adjuncts, argument islands, argument linking, arguments
- arguments
 - marked and unmarked 691–694
- aspect
 - and causer and experiencer 523–524
 - complex predicates and 519–552
- aspectual *come/go*
 - affix lowering and 323–344
 - behavior of 316–319
 - coordinate analysis of rejected 319–322
 - verb raising and 323–344
- asymmetric passive
 - see* passive, asymmetric
- asymmetrical object languages
 - and symmetrical object languages 719–724
 - see also* Accusative Case Blocking, asymmetric passive, Burzio's Generalization, Case, Case absorption, double object constructions, noun incorporation, symmetric passive, symmetrical object languages, unaccusatives
